Re: 04-233 – Low Power FM Proposed Change in Status

Gentlemen:

I am writing to you during the public comment period regarding the proposal to expand the service of the low power FM stations. I wanted to let you know that at least two radio stations in my local area that are on the lower end of the FM dial are very important to me as a member of my community. I almost exclusively listen to either 88.9 (Calvary Satellite Network-CSN) or 90.3 (K-Love). It is important to me to have stations that share my life values and goals and support them. It is also important to me that there are stations available that do not air either language, jokes, innuendos or other offensive material.

I believe that this is an important objective as a community-wide service as well. Parents who are attempting to limit negative influences in their children's lives have an alternative in these stations, as well as other like them on the lower end of the FM dial.

Also, public radio is at this end of the dial. While I rarely listen because many of the programs cross over the view that I hold in life on many issues, I have many friends who listen to the public station. My neighbor (who listen to public radio) and I were just two weeks ago lamenting how frustrating it is (currently, without changes) to clearly receive our stations. We have to be in the right place in house to get even moderate reception, especially on 88.9.

Please, do not allow changes that would either further degenerate the quality or remove the availability totally. Thank you for the opportunity to comment.

Sincerely,

Zelda Popovich
